

Organisations across Coventry and Warwickshire are working together to improve the range of services available to local people so they don't have to be in hospital.

One area we are looking at in particular is about integrating community services with the wider NHS and social care network.

We are holding multiple events, open to anyone who wants to come along, where we want to hear more about how we should be looking to work on these services.

In particular we will be focusing on wellbeing and how we ensure people live healthier for longer.

DATE	TIME	VENUE
