

No monkey business!

Energy switching you can trust!

**Join our collective
energy switch**

Register today at:

warwickshire.gov.uk/switchandsave

Local authorities across the country have been joining forces for the Big Community Switch since 2013. Collectively we offer residents the opportunity to group together and pay less for their energy.

The more people who take part, the greater our ability to get you a more competitive energy deal!

**Big Community
Switch**

#BigCommunitySwitch

How does it work?

1. Registration

It is free and without obligation. Registration takes less than five minutes.

2. Auction

We hold an auction where supplier bid. The supplier with the cheapest tariff will offer you a new contract.

3. Personal offer

A couple of weeks after our auction you will receive your personal offer and you can see how much money you can save.

4. You decide

You choose whether you to accept or decline the offer. If you accept we will take care of the entire switching process.

5. You're in control

You will be one of the thousands who have saved money and taken control of their energy costs by switching with us.

Did you know - We have saved switchers over £47m to date!
